

Insurance Compensation Survey

by APCIA

DEADLINE EXTENDED TO JUNE 7

APCIA and Willis Towers Watson bring you the only survey that covers compensation across the property casualty insurance industry.

BENEFITS OF PARTICIPATING

When you participate in the survey you contribute to industry knowledge—the more companies that participate, the better the data. The survey consists of non-executive and executive sections. Fill out only the section(s) you want to participate in. In addition, APCIA member companies receive final data free of charge and in advance of its release to non-participants.

Participants will also be able to work with Willis Towers Watson Data Services to create desired cuts of the data when results are posted in August. You will find this information invaluable in your market pricing of key positions in your company.

THE NEXT STEP

If you did not receive an email invitation from Willis Towers Watson and want to participate, email Surveys@apci.org. The survey data submission deadline is extended to Friday, June 7. Results will be available in August.
