

The **CALM** before the **STORM**

**HURRICANE
JOAQUIN**

PCI Recovery Tips

Cover or patch broken windows or holes in your roof to prevent further damage.

Keep all receipts so you can submit them to your insurance company later.

Report all damage to your insurance company or agent as soon as you can.

Make a list of damaged items and record the age of things that need to be replaced or repaired.

Don't throw out damaged furniture or other expensive items. The adjuster will want to see them.

Take photographs of the damage before you start cleaning it up.
